The State of the Feather

An Overview and Year In Review of The Apache Software Foundation

-- Jim Jagielski, Chairman ASF

In the beginning...

- There was The Apache Group
- But we needed a more formal and legal entity
- Thus was born: The Apache Software Foundation (April/June 1999)
- A non-profit, 501(c)3 Corporation
- Governed by members - member based entity

The Overview

- Not a replacement for “Behind the Scenes...”
- To appreciate where we are -
- Need to understand how we got here

“Hierarchies”

Development

- PMC Members
- Committers
- Contributors
- Patchers/Buggers
- Users

Administrative

- Board
- Officers
- Members

At the start

- There were only 21 members
- And 2 “projects”: httpd and Concom
- All servers and services were donated

Today...

- We have 258 members...
- and 49 emeritus member
- 70 TLPs
- ~30 Incubator podlings
- Tons of committers (literally)
  - (Over 2000 people)

The only constant...

- Has been Change (and Growth!)
- Over the years, the ASF has adjusted to handle the increasing "administrative" aspects of the foundation
- While remaining true to our goals and our beginnings

Handling growth

- ASF dedicated to providing the infrastructure resources needed
- Volunteers supplemented by contracted out SysAdmin
- Paperwork handling supplemented by contracted out SecAssist

Handling growth

- Infrastructure Chair
- Separate Exec. Vice President
- Search for ExecAssist to help Board and President
- Accounting services as needed
- Using pro-bono legal services

Staying true

- Policy still firmly in the hands of the ASF
- Use outsourced help where needed
  - Help volunteers, not replace them
  - Only for administrative efforts
- Infrastructure itself is a service provided by the ASF
- Board/Infra/etc exists so projects and people don't need to worry about it

Last year highlights

- New TLPs and Cmmts:
  - Apache Archiva 03/08
  - Apache CXF 04/08
  - Apache Tuscany 05/08
  - Travel Assistance Committee 09/08
  - Apache Abdera 11/08
  - Apache CouchDB 11/08
  - Apache Buildr 11/08

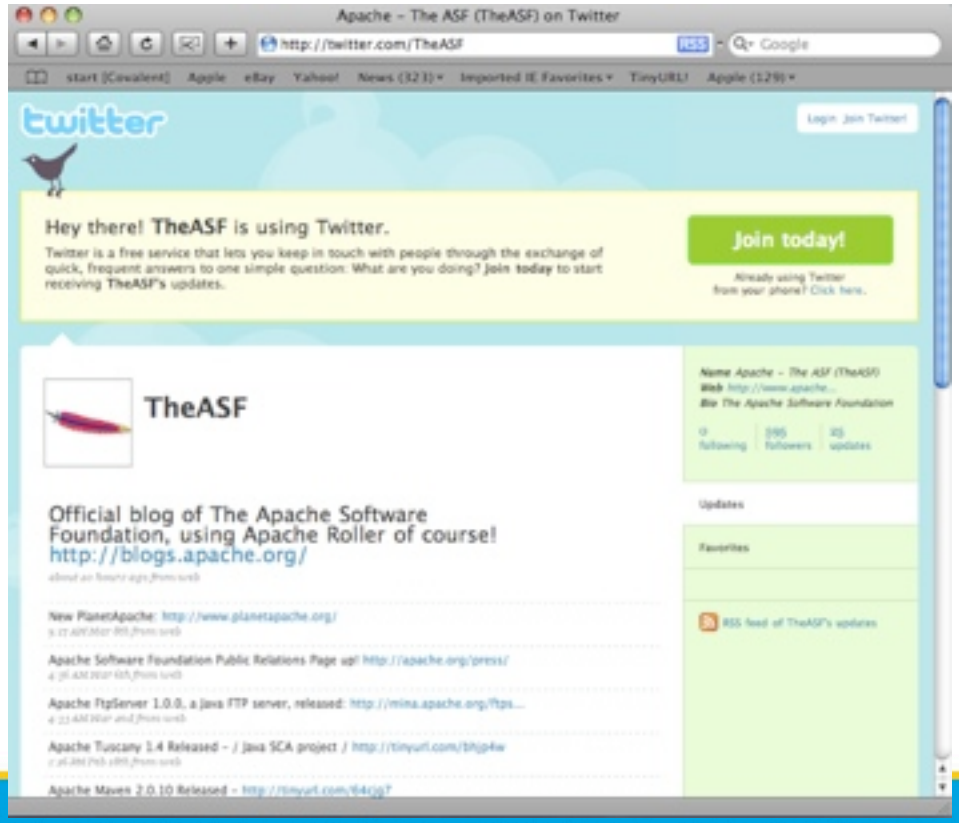
Top Level View

- In general, PMCs are active and healthy!
  - Lots of releases
  - Lots of development
  - New committers and PMC members
- Last members meeting had a very high turnout
- ASF continues to be recognized as FOSS leader

We use this Web Thing

- We have a twitter feed
  - http://twitter.com/TheASF

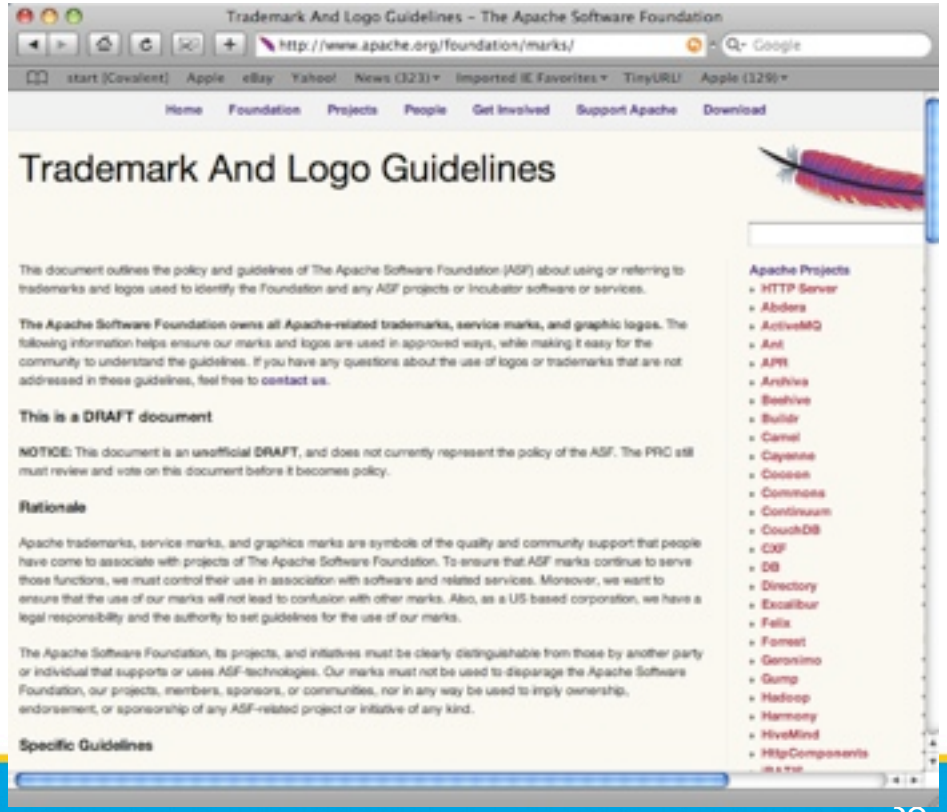


We use this Web Thing

- We have a blog
  - http://blogs.apache.org

We use this Web Thing

- We have a Logo/TradeMark page
  - http://www.apache.org/foundation/marks



Top Level View

- Not seeing has much movement to TLP as last year
- There are some PMCs maintaining the status quo
  - this ain't bad
- There are also some PMC's that have very low activity/energy and now we have the Attic

What's on the horizon?

- Members meeting - June
- Expect to see more PR from the ASF
  - 10 Freakin' Years!
  - We are doing great things
  - We are the great Open Source success story
  - We are world changers
- Growth, growth growth...

And finally...

- A big Thank You to:
  - Every member
  - Every committer
  - Every developer
  - Every user
  - Every supporter
- Community over code isn't just a slogan
- It's a way of life.

That's all folks!
